

Standard Installation

Introduction

There are various ways to install and configure SureTrend 4 that give users more control and security over their databases. This article will go over the standard installation method. The standard installation is intended for one or more users accessing a single database from the same computer.

Standard Installation

1. Download the most recent build [here](#).
2. After the file has finished downloading, double click the installer to run it.
3. Select your preferred language and click **Next**.
4. Read and accept the license agreement, then click **Next**.
5. Leave the checkbox for Multiuser Distributed Network unchecked.

6. Click **Next**.

7. Wait for the installation to complete, then click **Finish**.
