

Separating Account Data

Overview

- Export locations
- Create a location import template
- Export instrument users
- Create an instrument user import template
- Sync instruments
- Export results
- Delete SureTrend Cloud users
- Create a new SureTrend Cloud account
- Create new sites
- Invite SureTrend users
- Import plans and locations
- Import instrument users
- Factory reset instruments
- Register instruments to the new account

Note: If you are exporting data for multiple sites and the locations and users are different for each site, you will need to export locations and users for each site and create a template for each site. If the locations and users are same for each site, you can import the data into one site in the new account and use the global attribute to make it available on each site in the new account.

Export locations

1. Log into [SureTrend Cloud](#).
2. Click [Sites](#).
3. If the site menu is not visible, click the name of the site to expand the menu.

Search by Name...

Download

Step: 2 Add plans and locations to template and save

- Open the locations list downloaded in the steps above and the import template.
- Copy the locations list data into the template.

Note: This will only create a copy of the locations. This will not create a copy of the plans. If you want to recreate your existing plans, see these [Importing instructions](#) for completing the template.

The left screenshot shows an Excel spreadsheet titled "ANES Cart". It has columns A through H. Column A is "Location Name", B is "Lower", C is "Upper", and D is "Device/Assay/Test". The data lists various items like "ANES Cart", "ANES Keyboard", "ANES Machine", "ANES Mouse", "Arm Table", "B Scope Channel", "B Scope Distal", "Back Table", "Bair Hose", "Bathroom Handrails", "Bathroom Sink", "Bed Rails / Controls", "Bovie", "C Arm", "C Scope Channel", "C Scope Distal", "Call Button / Button", "Chair", "Countertop", "Crib", "Donut Positioner", "Door Handle", "Door Lever", "ERCP Channel", "ERCP Distal", "ERCP Elevator", "File Cabinet Handle", "Floor", "Foot Stool", "G Scope Channel", "G Scope Distal", "GVN Straps", "Handrail", and "Hands". Each item has values in the Lower and Upper columns (mostly 30 and 60) and "UltraSnap" in the Device/Assay/Test column.

The right screenshot shows an Excel spreadsheet titled "FoodandBeverage (18)". It has columns A through N. Column A is "Plan Name", B is "Device Name", C is "Lower", D is "Upper", E is "Group", F is "Surface", G is "Zone", H is "Line", and I is "Cleaner". Factory reset instruments

Performing a factory reset will erase all the data on the instrument. Please ensure you have synced all the data to SureTrend Cloud before performing a factory reset.

Requires Admin role on EnSURE Touch

For each EnSURE Touch that will be registered to the new account:

1. From the Home Screen, tap Settings.
2. Tap General.

3. Tap Factory Reset.
4. Tap Factory Reset now.
5. Confirm you want to factory reset.
6. The instrument will restart and return to the set-up process.

Register instruments to the new account

For each EnSURE Touch that will be registered to the new account:

1. Log into your new [SureTrend Cloud](#) account.
2. On the [Home](#) tab, click [Register Instrument](#).
3. Enter a name for the instrument and select a site from Sites dropdown menu if available.
4. Click Next.
5. The cloud will display a username and code to enter on EnSURE Touch.
6. Follow set-up prompts on EnSURE Touch. In the registration step, enter the username and code generated in step 5.
7. Complete the rest of the set-up steps.
8. The instrument is now registered to the new account. It should have all the plans, locations, and users from the steps above.
