# Recording an Allergen Location Test
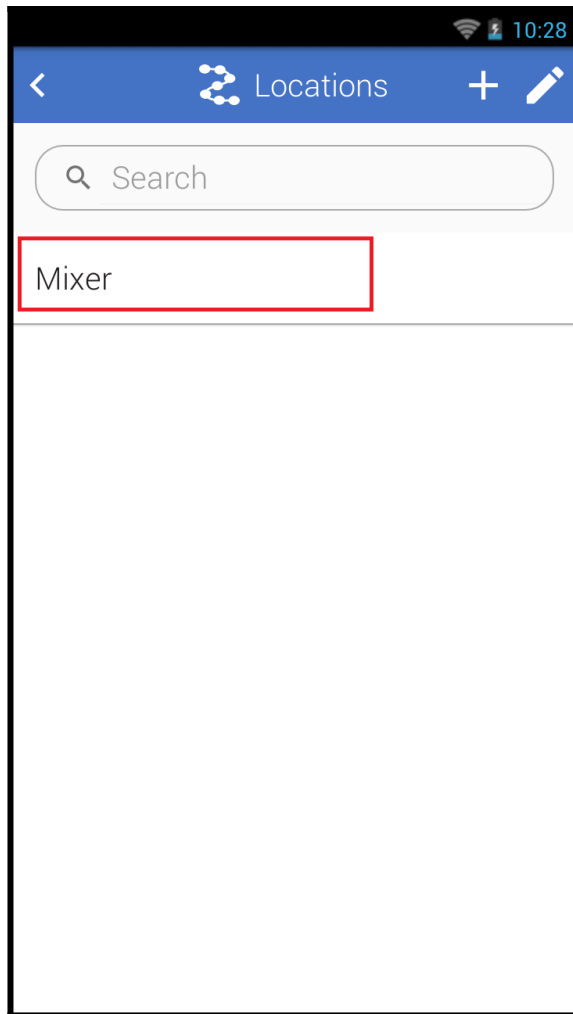

Recording an Allergen Location Test

1. Open the Allergen app.

2. Tap Locations.

3. Tap the name of the location you are testing.

4. Confirm the device type and allergen are correct.
5. Enter the test result by tapping Positive, Negative, Caution, or Invalid.

6. Tap the Save button.
7. Review the test information and tap the Done button to finish recording the result.
